

JCT 600 Bradford League scorers Newsletter No 1

Good luck for tomorrow when you tackle laptop scoring for the first time. This is a big day for the league and we appreciate your efforts.

Some things to remember.

- 1 The user guide has been emailed to your inbox on Mozilla Thunderbird
- 2 Remember to charge up the laptop fully if you are going to use it on battery power
- 3 Remember to top up your dongle with enough credit
- 4 Remember to connect to live scores once the game is under way
- 5 Remember to send a pdf of the scorebook to results@bradfordcricketleague.org immediately after the game

Today's helpful hint: If you cannot identify the player who has taken a catch immediately select a name from the drop down list. Later use edit ball ball data to go back to the over the wicket fell, highlight the ball where the wicket fell, click edit at the bottom of the dialogue box and then change the catch to the correct name. Close the dialogue box and carry on.

Additional registrations

These can only be added when directed to do so by me.

This week there is just one addition:

Manningham Mills: Mohammad Sharafat.

To add him select data from the commands across the top of the page

Next select players

From the drop down box select Manningham Mills

Click add and another dialogue will appear. **DO NOT FILL IT IN!!!!** This player is in the database so click Find in Database which is in the top left hand corner.

From the list of players that appears. Find Mohammad Sharafat, highlight and click ok.

The player will now appear in the Manningham Mills list

Next week

A list of additional registrations will be sent out of players who were not signed in time to play in the opening fixture. There is a different procedure for adding these and I will explain it next week.

IT IS VITALLY IMPORTANT YOU COMPLETE ALL THESE UPDATES.

In the Friday Scorers' Newsletter I will endeavour to tackle any issues you raise.

Emergency contacts:

Technical support Mike Baker 0797 6835166 or David Young 07979 707481.

They can dial into your machine using Teamviewer 5 and solve a problem

Scoring support: Duncan Sloane 0780 0846424, Richard Kosmala 0787 7854507, John Atkinson 0775 4580585.

Results service or other queries: Alan Birkinshaw 0774 9802684.

Don't struggle, if you have a problem call US.
