

JCT 600 Bradford League Scorers' Newsletter 7

Firstly a big thank you to all of the scorers who logged on their machines in midweek to enable David Young to carry out some essential updates in midweek.

Total Cricket Scorer has done considerable work in recent weeks to iron out some of the glitches which surfaced in the earlier weeks of the season.

The new league widget looks impressive and can be viewed at <http://www.bradfordcricketleague.org/tcsscores.html>

We have made tremendous progress with the live scores service in recent weeks and judging from the comments we have received the updates are happening much quicker and the dreaded circle is not lingering on your screens.

Some of you are still having trouble with your dongles. The single strength has been an issue in some places. It is not unusual for your dongle to lose its connection. Many of you are now proficient at spotting this, but it is something you should watch.

One thing I want you all to avoid is accessing social networking sites such as Facebook while scoring. This can lead to problems with the software and can put extra strain on the dongle you are using.

Website

During the past week many of you may have experienced problems accessing the league's website and sending and receiving emails. This has been due to a major server problem at our web provider's base in California. We apologise for any inconvenience this has caused. It is as a result of the difficulties experienced that we have decided to create hotmail email addresses for all of you so as to create an alternative delivery mechanism for results sheets if it is necessary to activate this back up procedure.

Landmarks

We are aware that scorers like to know when players are approaching important landmarks. Here are two which should soon be achieved.

Ashley Metcalfe of Undercliffe needs 44 runs to become the third player to score 15,000 Bradford League runs.

Phil Allinson (Pudsey Congs) needs 73 runs to reach 10,000 runs in second team cricket.

New Registrations

Imran Dawood (Hanging Heaton)
